DETAILED ACTION

1. The examiner assigned to the current application has been changed. The new examiner's name and contact information are stated at the end of this action. Applicant is requested to take note of the change.

Response to Amendment

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. No new grounds of rejection have been introduced, therefore this action is properly deemed FINAL.

Claim Rejections - 35 USC § 112

4. The 112 written description rejection is withdrawn because it has been determined that the patent specification describes in sufficient detail that Na_2O is present on the surface of the metal hydroxide (see instant specification: pg 6, ln. 1-13; pg. 30, ln. 14-20).

5. Claims 1-6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

6. The rejection is adequately set forth in paragraphs 7-14 in the office action mailed on April 27, 2009 and is incorporated here by reference.

Response to Arguments

7. The 112 enablement rejection is not withdrawn because while Applicant has demonstrated that metal hydroxides with the claimed amount of Na_2O are commercially available under the tradename HIGILITE (see Remarks filed August 20, 2009, Exhibits I and II), the Exhibits fail to present a publication date. It is noted that MPEP 2164.05(a) states that the enablement must be as of the filing date. Without evidence of the point in time that the HIGILITE material contained Na_2O , especially as HIGILITE is a tradename of a product and therefore subject to change, Applicant's arguments are not persuasive.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
